Home Energy Savings Scheme

The **Home Energy Saving (HES)** scheme provides grants to homeowners who are interested in improving the energy efficiency of their home in order to reduce energy use and costs as well as greenhouse gas emissions. The scheme is open to all owners of existing houses built before 2006. Sustainable Energy Ireland administers the scheme.

Landlords and owners of multiple properties may also apply, however they must submit a separate application form for each property. If you are a landlord or a management company considering an entire building upgrade, please contact SEI before applying online for the grant.

Assistance will be provided by way of fixed grants towards the costs of implementing upgrade measures. The types of measures currently eligible under this scheme are **roof insulation, wall insulation, high efficiency boilers and heating control upgrades**. There is also a grant for households who choose to get a Building Energy Rating (BER) assessment Before and After the works are completed, however this is not mandatory.

Energy Grants Available

MEASURE	CATEGORY	GRANT *
Roof	Roof Insulation	€250
Wall	Cavity wall insulation	€400
	Internal Wall Dry-Lining	€2,500
	External wall insulation	€4,000
